## EXPERIENCE

---

### Women in Science UWO

London, ON, Canada

Director of Technology

August 2023 to Present

- Developing a website for the Women in Science club using React and Node.JS. <https://www.wisuwo.com/>
- Working as a team to maintain the website by testing extensively for bugs and providing fixes, updating relevant information such as club events, obtaining feedback from club members and making changes accordingly
- GitHub: <https://github.com/isabelle-bh/wis>

### X Tronics Inc.

Concord, ON, Canada

Assistant Web Developer

May 2024 to August 2024

- Maintained the EV-Tronix e-commerce website by adding products, editing graphics, content creation, CSS styling, and completing programming tasks for custom functionality on Shopify. <https://evtronix.ca/>
- Assisted with web development and design on the new X Tronics website. <https://xtronics.ca/>
- Used Adobe Creative Cloud for various design tasks

### X Tronics Inc.

Concord, ON, Canada

Office Administrator

May 2022 to August 2022

- Acted as assistant to Financial Analyst by handling invoices and bills, organizing accounts payable/receivable, communicating via email with customers and vendors for any inquiries
- Used Sage for accounting tasks and Excel for various organizational tasks

### Designer Shoe Warehouse

Barrie, ON, Canada

Store Associate

November 2020 to August 2021

- Managed the cash registers, made myself available on the floor to help customers with any questions, accepted deliveries, and organized stock/inventory

### Lone Star Bar and Grill

Barrie, ON, Canada

Hostess

August 2019 to August 2020

- Greeted customers cheerfully, handled restaurant floor plan and reservations, bussed tables and ran food/drinks for servers, worked in the back handling takeout orders on certain days
- Clear teamwork and communication between hosts, servers, and kitchen was vital to the daily workflow

## PROJECTS & SKILLS

---
